

NEWS RELEASE

IMPACT ANALYTICS JOINS THE OPENINFRA FOUNDATION

Calgary, Alberta / April 30, 2024 – Impact Analytics Inc. (“Impact Analytics” or the “Company”) (CSE: PACT), a risk assessment, data intelligence and financial services platform powered by AI, is pleased to announce its membership in the Open Infrastructure Foundation (“OpenInfra” or the “Foundation”). The OpenInfra Foundation supports open infrastructure’s development and adoption globally through hosting open-source projects and communities of practice.

Key Takeaways:

- Impact Analytics has become a member of the OpenInfra Foundation to support the development and adoption of open infrastructure on a global scale.
- The membership aligns with the Company's use of OpenInfra’s offerings to enhance its Secure Data Vault and vertically integrate its applications.
- Joining OpenInfra connects Impact Analytics with a network of over 110,000 individuals and some of the biggest names in technology worldwide.

CEO Colin Frost states, *"Joining the OpenInfra Foundation aligns with our mission to harness world-class infrastructure and be part of an active global community. This membership not only supports our technological requirements but also positions us among some of the leading players in technology space, enhancing our offerings."*

This membership is important for Impact Analytics as it utilizes OpenInfra’s resources to bolster its technology stack, including the recently launched Secure Data Vault offering.

About OpenInfra

Originally formed as OpenStack, the Foundation began in 2010 as a joint project of Rackspace Hosting and NASA. With the realization that more technology would be needed to meet their diverse use cases, and desire to ensure this technology is developed in the open, Open Stack was renamed as the Open Infrastructure Foundation in 2021.
